DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 22, 25-28, 32-37 and 39 are rejected under 35 U.S.C. 103(a) as being unpatentable over International Publication No. WO 93/19991 to Husnu and U.S. Patent No. 3,545,669 to Kinkade.

Husnu discloses the claimed device except for the first panel having a second portion that is removable from the first panel to define a second open region for displaying a second address. Kinkade discloses that it is known in the art to provide a removable, second portion on the first panel of an analogous envelope. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the first panel of Husnu with the removable, second panel of Kinkade, in order to provide a second, open region for displaying a second address.

3. Claims 1, 2, 10, 24 and 43-46 are rejected under 35 U.S.C. 103(a) as being unpatentable over Husnu and Kinkade as applied to claim 22 above, and further in view of U.S. Patent No. 5,704,543 to Pöllänen.

Husnu and Kinkade disclose the claimed device, as discussed above, except for the postage region of the enclosure first panel including a first panel removably

overlying a second panel. Pöllänen discloses that it is known in the art to provide a first panel that removably overlies a second panel in the postage region of an analogous envelope. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the postage region of Husnu with the first panel that removably overlies the second panel of Pöllänen, in order to permit removal of the initial postage before remailing the envelope.

Response to Arguments

4. Applicant's arguments with respect to claims 1, 2, 22, 24-28, 32-37, 39 and 43-46 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
